Performance data quoted represents past performance which is no guarantee of future results. Investment return will fluctuate. The value of an investment when redeemed may be worth more or less than the original cost. Current performance may be higher or lower than performance stated.

- (1) "WAM Days" is the mean average of the periods of time remaining until the securities held in TexPool (a) are scheduled to be repaid, (b) would be repaid upon a demand by TexPool, or (c) are scheduled to have their interest rate readjusted to reflect current market rates. Securities with adjustable rates payable upon demand are treated as maturing on the earlier of the two dates set forth in (b) and (c) if their scheduled maturity is 397 days or less; and the later of the two dates set forth in (b) and (c) if their scheduled maturity is more than 397 days. The mean is weighted based on the percentage of the amortized cost of the portfolio invested in each period.
- (2) "WAM Days" is calculated in the same manner as the described in footnote 1, but is based solely on the periods of time remaining until the securities held in TexPool (a) are scheduled to be repaid or (b) would be repaid upon a demand by TexPool, without reference to when interest rates of securities within TexPool are scheduled to be readjusted.
- (3) All current yields for TexPool Prime, for each date, reflect a waiver of some of all management fees.

(1) This weighted average maturity calculation uses the SEC rule 2a7 definition for stated maturity for any floating rate instruments held in the portfolio to determine the weighted average maturity for the pool. This rule specifies that a variable rate instrument to be paid in 397 calendar days or less shall be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate.

(2) This weighted average maturity calculation uses the final maturity of any floating rate instruments held in the portfolio to calculate the weighted average maturity for the pool.

(3) The yield for each date reflects a partial waiver of management fees, as provided for in the TexSTAR Information Statement.

TOBACCO GRANT INFORMATION

Purpose of the grant is to make sure that local vendors do not sell tobacco products to minors. This is a 3 step process:

- 1) An officer makes contact with the store manager and gives them a new packet of signs, the laws, and other helpful material. The officer then informs the store manager that the Sheriff's Office will be making 2 more visits in the next several months, one to check their signs, and one to send in a minor to attempt to buy tobacco products.
- 2) Officers will go to the selected stores (same ones that were previously visited) and check for sign violations.
- 3) An officer will enter the store to make a small purchase, then the minor decoy will go in and attempt to make a tobacco purchase. The minor cannot lie, and has to produce an ID if he/she has one and tell the truth about their age if asked. After the attempt or actual buy is made, the officer makes his/her purchase and leaves. At some point, later in the day or the next day, if a sale was made to the minor, a uniformed officer will issue a citation to the clerk that made the sale.

The goal is to try to keep the vendors in Hunt County selling at a rate lower than 20%.

The first year of the grant, the sale rate was 19.2%.

This year, so far, the sell rate has been 12.5%

At the conclusion of the operation, an officer will take a CERTIFICATE OF APPRECIATION to the stores that do not sell.

Although the Texas STEP program notified us that we would not get any additional grant funds for the next year, because of our success rate, the State Comptrollers office has chosen to pick us up as we have had such a good success rate.
