*DSHS will evaluate the period of 01/01/12 – 08/31/13 compared to 01/01/10 – 08/31/11.

Based on the **PLANS OF ACTION** (01/01/12 – 08/31/13)...

	For this reporting period	Since 01/01/12	*Plan of Action Target (By 08/31/13)

How many adult residents of Hunt County diagnosed with COPD were provided with <u>smoking cessation services</u> ?	9	9	200

*Do not change numbers in "Plan of Action Target" column.

If applicable, describe any **successes** experienced during this reporting period.

- 1) Acquired office furniture, equipment, and supplies and established dedicated office space at the Hunt County Health Department Medical Services Clinic to support the program.
- 2) Confirmed participation of program coalition members.
- 3) Successful program kickoff presentation on 2/22 at Hunt Regional Medical Center (HRMC) with 23 attendees.
- 4) Completed on-line training course in Basic Skills of Working With Smokers through the University of Massachusetts School of Medicine.
- 5) Started two very promising working relationships: one with Health Services of North Texas, which works primarily with HIV/AIDS clients; and another with Lakes Regional Mental Health/Mental Retardation (MHMR) Center of Greenville; gave a presentation on the Potentially Preventable Hospitalization program to 18 of the MHMR clients on 3/16/12. Three "quit smoking" presentations to MHMR clients are scheduled in April (they have 1500 clients, about 70% of whom are smokers).
- 6) Gave a "Quit Smoking" presentation for the employees of Legend Health and Rehabilitation Center (long-term care).
- 7) Information about the Preventable Hospitalizations program was posted on the website of the Hunt County Health Department, and links to the information were added to the Hunt Regional Healthcare website and the Senior Center Resource and Public Transit website.

If applicable describe any **challenges** experienced during this reporting period.

- 1) Need to find ways to increase the program presence in the southern part of Hunt County (Quinlan/West Tawakoni). This area accounts for a high percentage of the hospitalizations for COPD.
- 2) Many smokers are resistant to discussing their smoking habits and the idea of quitting, particularly those who are long-term smokers with low income and education levels. Reaching these people is going to be a continuing challenge for the duration of the program.
- 3) Follow-up of persons who want to quit smoking is part of the intervention strategy for the Preventable Hospitalizations program. Clients of the Greenville Community Health Center who receive smoking cessation counseling are offered the opportunity to sign a consent form to allow follow-up support by the Hunt County Health Department in their efforts to quit. So far no one has signed the consent form. According to the nurse educators at the Community Health Center, most of their clients who smoke endure the counseling because they don't have a choice, and they do not want to be contacted about their smoking.
- 4) The "quit smoking" program at Legend Health & Rehab had only 4 attendees, even though 15 had signed up. Afterward, I talked to the Director at Legend about having another program for the employees and offering food or some other incentive for people to attend. She agreed to do something to encourage better attendance at the next program.
- 5) Data from Hunt Regional Medical Center on inpatient immunizations and smoking cessation counseling runs 3 months behind, so their first quarter data won't be available until June.

If applicable, describe any **technical assistance needs**.

Need to know how to set up a teleconference. Does DSHS have a preferred provider for this? Who is a point of contact that can advise on setting one up?

For this reporting period, list the date, time and location of each **coalition** meeting held. Additionally, list the names of individuals and organizations attending the meeting.
