Nina,

It was good to speak with you earlier.

Per our conversation, we, GXT, have been contracted by ZAYO Group, to develop design plans for the construction of a fiber optic cable route in Hunt County TX. This project is needed to support the Region 10 Celeste ISD project. Much of our proposed build takes place along **CR1087** between **FM903** and **W. Sweeney St.** This build would be a combination of underground (directional-bore-dry auger) and aerial (utilizing existing poles). I've attached a copy of our design plans to this email. If you or Mr. Evans need additional information or have questions let me know. With the next Hunt County Commissioner's Court convening on February 12, we have plenty of time to get any requested information back to you.

Thanks, Tom
