TEXAS PUBLIC LIBRARIES

ANNUAL REPORT FOR LOCAL FISCAL YEAR 2018

This report is due to the Texas State Library and Archives Commission by **April 30, 2019**. We strongly urge libraries to report no later than March 31, 2019, to provide time to make any necessary revisions.

The Texas State Library and Archives Commission participates in a national public library data collection system. The purpose of this system is to ensure the collection of comparable data in all states. The data is used for the creation of a composite report on the public libraries of the United States and for state-to-state comparisons by the Institute of Museum and Library Services (IMLS). This report is also used to accredit Texas public libraries and some data elements are used for that purpose. Accreditation-related questions are marked within the questionnaire (§).

Definitions are important to ensure comparability of data from different libraries and states. Please refer to the definitions as this survey is completed.

Reporting libraries should not leave any items blank. Estimates are important if exact data are not available. For All questions relate to the library's local fiscal year 2018: the year that ended in calendar year 2018 and included January 1, 2018. If there was a change in the fiscal year, please contact LDN staff to update that information. All information must be entered into LibPAS, the online data collection portal at <https://tx.countingopinions.com>.

SECTION 6: LIBRARY COLLECTION

This section collects data on selected types of materials. It does not cover all materials for which expenditures are reported in the Collection Expenditures section.

Unless otherwise indicated, report for each item, title, and physical unit the amount held at the end of the fiscal year. Physical units are volumes, items, or pieces. For reporting purposes, a title is a publication that forms a separate bibliographic whole, whether issued in one or several volumes, reels, or disks. The term applies equally to printed materials, such as books and periodicals, as well as audio and video materials. Report only items that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use. Count electronic materials at the administrative entity level; do not duplicate numbers at each branch. Do not count un-catalogued paperbacks.

Most software systems include a method of determining number of titles. Libraries should use whatever method their software provides. If no method is available, an estimate should be made.

¶6.1 Library Catalog An accredited library must have a catalog of its holdings available to the public that is searchable electronically, at a minimum by author, title, and subject. Include records, audiocassettes, audio cartridges, audio discs including audio CD's, audio reels, talking books, and other sound recordings stored in a fixed, physical format. Items packaged together as a unit, such as two audiocassettes for one recorded book, and checked out as a unit are counted as one physical item. Do not include <u>downloadable</u> electronic audio files.			
6.6 Video Materials - Physical Format		Number of volumes, items or physical units	
		<input type="text" value="525"/>	
These are materials circulated in a fixed, physical format on which moving pictures are recorded, with or without sound. Electronic playback reproduces pictures, with or without sound, using a television receiver or computer monitor. Video formats may include tape (VHS), DVD and CD. Items packaged together as a unit, such as two video cassettes or DVD's for one movie and checked out as a unit are counted as one physical item. Do not include <u>downloadable</u> electronic video files.			

Electronic Material Counts

For purposes of this survey, units are defined as "units of acquisition or purchase". The "unit" is determined by considering whether the item is restricted to a finite number of simultaneous users or an unlimited number of simultaneous users.

- Finite simultaneous use: units of acquisition or purchase is based on the number of simultaneous usages acquired equivalent to purchasing multiple copies of a single title. For example, if a library acquires a title with rights to a single user at a time, then that item is counted as 1 "unit"; if the library acquires rights to a single title for 10 simultaneous users, then that item is counted as 10 "units". For smaller libraries, if volume data are not available, the number of titles may be counted.
- Unlimited simultaneous use: units of acquisition or purchase is based on the number of titles acquired. For example, if a library acquires a collection of 100 books with unlimited simultaneous users, then that collection would be counted as 100 "units".

6.7 Electronic Books (Ebooks)

22,407

Report all items to which your patrons have access, whether through the library or a consortium. Do not include TexShare holdings.

E-books are digital documents including those digitized by the library, licensed or not, where searchable text is prevalent, and which can be seen in analogy to a printed book monograph. E-books are loaned to users on portable devices e-book readers or by transmitting the contents to the user's personal computer for a limited time.

Include e-books held locally and remote e-books for which permanent or temporary access rights have been acquired. Report the number of electronic units, including duplicates at the administrative entity level; do not duplicate unit counts for each branch..

E-books packaged together as a unit, such as multiple titles on a single e-book reader, and checked out as a unit are counted as one unit. Report the number of units. Report only items that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; county only items that have a set circulation period where it is available for their use. Count electronic materials at the administrative entity level; do not duplicate numbers at each branch.

6.8 Audio Materials — Downloadable Units

Electronic Collections/Databases

Report the number of electronic collections. An electronic collection is a collection of electronically stored data or unit records (facts, bibliographic data, abstracts, texts, photographs, music, video, etc.) with a common user interface and software for the retrieval of the data. An electronic collection may be organized, curated and electronically shared by the library, or rights may be provided by a third party vendor. An electronic collection may be funded by the library, or provided through cooperative agreement with other libraries, or through the State Library. Do not include electronic collections that are provided by third parties and freely linked to on the Web.

Electronic Collections do not have a circulation period and may be retained by the patron. Remote access to the collection may or may not require authentication. Unit records may or may not be included in the library's catalog; the library may or may not select individual titles. Include electronic collections that are available online or are locally hosted in the library.

Note: The data or records are usually collected with a particular intent and relate to a defined type.

Report the number of electronic collections/databases acquired through curation, payment or formal agreement, by source of access.

6.10 Local Licensed Electronic Collections/Databases 4

Electronic collections/databases made available through purchase by the library or other local consortium. Do not count TexShare databases.

6.11 TexShare/TexSelect Licensed Databases 71

Libraries that were a TexShare member in 2018, and purchased the databases through the TexShare consortium, should report the number of TexShare databases available to their patrons. The number to report for Question 6.11 is **71**.

Libraries that chose to purchase one or more **TexSelect** databases would have up to **32** additional options to report in **6.11**.

Specify which **TexSelect** databases were purchased, and include in the Notes field in the online form.

SECTION 7: LOCAL LIBRARY SERVICES

⌘7.0 Long-Range Plan

An accredited library must have a long-range plan that has been reviewed and updated at least every five years and include a collection development element and a technology element.

Texas Administrative Code, Title 13, Part 1, Chapter 1, Subchapter C, Rule §1.83

Service Measures

7.1 Number of Reference Transactions

2,000

Reference Transactions are information consultations in which library staff recommend, interpret, evaluate, and/or use information resources to help others to meet particular information needs.

A reference transaction includes information and referral service as well as unscheduled individual instruction and assistance in using information sources including web sites and computer-assisted instruction. Count Readers Advisory questions as reference transactions.

Information sources include (a) printed and non-printed material; (b) machine-readable databases including computer-assisted instruction; (c) the library's own catalogs and other holdings records; (d) other libraries and institutions through communication or referral; and (e) persons both inside and outside the library.

When a staff member uses information gained from previous use of information sources to answer a question, report as a reference transaction even if the source is not consulted again.

If a contact includes both reference and directional services, it should be reported as one reference transaction. Duration should not be an element in determining whether a transaction is a reference transaction.

It is essential that libraries **do not** include directional transactions in the report of reference transactions. Directional transactions include giving instruction for locating staff, library users, or physical features within the library.

Examples of directional transactions include:

- Where is the restroom?
- Where is the reference librarian?
- Where is Susan Smith?
- Where are the 600's?
- Can you help me make a photocopy?

If an annual count of reference transactions is unavailable, count reference transactions during a typical week or weeks, in which the library is open its regular hours, and multiply the count to represent an annual estimate. If the sample is done four times a year, multiply totals by 13; if done twice a year, multiply by 26; if done annually, multiply by 52. A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or in the library.

7.2 Library Visits

15,886

Frequently referred to as the gate count, this is the number of persons entering the library for any purpose during the year.

7.3 Registered Users

10,409

A registered user is a library user who has applied for and received an identification number or card from the public library that has established conditions under which the user may borrow library materials and gain access to other library resources. Files should have been purged within the past three 3 years.

<p>7.4 Circulation of Children's Materials — Physical formats</p> <p>Report the total annual circulation, including renewals, of all library materials in physical formats marked as children's, whether borrowed by a juvenile, young adult, or adult. This includes books, physical audiobooks, physical videos (VHS or DVD), and other physical materials.</p> <p>The National Center for Education Statistics NCES: Children and Young Adults Defined [<i>Services and Resources for Children and Young Adults in Public Libraries</i>, August 1995, NCES 95357] defines children as persons age 11 and under.</p> <p>Interlibrary loan transactions included are only items borrowed for users. Persons reported under this category usually do work that requires professional training and skill in the theoretical or scientific aspect of library work, or both, as distinct from its mechanical or clerical aspect. The educational requirement is a Master's degree from a library education program accredited by the American Library Association (ALA). An accredited library with a population assignment greater than 25,000, must have professional librarians on staff. Texas Administrative Code, Title 13, Part 1, Chapter 1, Subchapter C, Rule §1.81

<p>10.3 Annual Uses of Public Internet Computer</p>	<p>3,106</p>	
<p>Report the total number of uses (sessions) of the library's Internet computers in the library during the last year. If the computer is used for multiple purposes — Internet access, word-processing, OPAC, etc. — and Internet uses (sessions) cannot be isolated, report all usage. A typical week or other reliable estimate may be used to determine the annual number. This is for in-library use only.</p> <p>The number of uses sessions may be counted manually, using registration logs. Count each use session for public internet computers, regardless of the amount of time spent on the computer. A use (session) on the library's public Internet computers three times a week would count as three uses (sessions).</p> <p>Software can also be used to track the number of uses (sessions) at each public Internet computer. If the data is collected as a weekly figure, multiply that figure by 52 for an annual estimate.</p>		

<p>10.4 Annual Wi-Fi Sessions</p> <p>Report the total number of sessions in a year of the library's wireless Internet access Wi-Fi by users. A wireless connection allows users to make a connection to the library's Internet using a personal laptop, tablet, or smart phone. A typical week or other reliable estimate may be used to determine the annual amount. Information is generally obtained from router software. If uncertain where to find it, contact LDN staff for more information. Do not include use of library equipment in this count. If this data is not being collected, please report "0."</p>	500	Data Not Collected	No Wi-Fi Available
<p>10.5 Annual Website Visits</p> <p>Visits represent the annual number of sessions initiated by all users from inside or outside the library to the library website. The library website consists of all webpages under the library's domain. A website "visit" or "session" occurs when a user connects to the library's website for any length of time or purpose, regardless of the number of pages or elements viewed. Usage of library social media accounts (e.g., Facebook, Twitter, etc.) should not be reported here. A typical week or other reliable estimate may be used to determine the annual amount. An accredited library must have a website. Texas Administrative Code, Title 13, Part 1, Chapter 1, Subchapter C, Rule §1.83</p>		Data Not Collected	No Website
<p>SECTION 11: LIBRARY HOURS</p>			
<p>11.1 Annual Public Service Hours for Central Library</p> <p>This is the hours the library was available to your patrons last year at the Central or Main Library facility. Report every hour that the facility was open to the public during all of last year. This total should be reduced for any hours that the facility was closed to the public (e.g., holidays, weather emergencies, natural disasters, staff development days, construction, repairs, etc.). Branch hours open per year will be reported in each branch sub-report.</p>	2,086		
<p>11.2 Annual Public Service Weeks for Central Library</p> <p>This is the number of weeks open for public service at the Central/Main Library facility. The count should be based on number of weeks open for half or more of the library's scheduled service hours. Extensive weeks closed to the public due to natural disasters or other events should be excluded from the count. Round to the nearest whole number of weeks. If the library was open half or more of its scheduled hours in a given week, round up to the next week. If the library was open less than half of its scheduled hours, round down. <p>⌘ 11.3 Weekly Service Hours All Facilities Available</p> <p>Report the number of unduplicated hours the library and its branches are open to the public during a regular scheduled week. If the library has no branches, the answer will be the same as the amount reported in question 11.4, Weekly Hours Central Library Open - Regular Schedule. Example: Main is open M-F 8-5; the branch is open M-F 9-6. This library would be open 10 unduplicated hours per day. The total for five days would equal 50 hours per week. Libraries with branches should report the total number of unduplicated hours per week the libraries are open. For assistance or clarification, contact LDN staff, or use the Weekly Total Hours Calculator, below.</p>	42
