UTRWD SOIL BORINGS

Re: HVJ Soil Borings in Hunt County

HVJ Associates® is requesting permission to begin geotechnical drilling for the investigation of soil boring along CR4618 of Hunt County ROW. HVJ wishes to start work on Wednesday, October 15th, 2021 . As seen on the attached map.

All boring locations will be marked and one called accordingly prior to any drilling operations. Borings located on the pavement will impact the traffic as they will require a flagging operation. TCP 1-2B-18 (MUTCD Equivalent is TA-10) will be utilized. The borings will be drilled on weekdays, 8 am to 4 pm. Please see the attached MUTCD traffic control standards that will be implemented according to Traffic Control Plan.

The Purpose of this work is to drill 30-40' vertically for soil and rock sampling. Borings will be drilled with a 4-8" auger. Boring will be immediately backfilled with soil cuttings and bentonite. Borings on Asphalt, will immediately be backfilled and patched.

The approximate time per boring locations will be two working hours.

Preston Mee will be our field representative and will be available at 817.240.8826. Dipendra Sharma will the point of contact at office and can be reached at 469.487.3971.

Please let me know if you require any additional information.

Sincerely,

Preston Mee
