**Re: SiEnergy ROW Permit along CR 2658**

Ms. Gibson and Commissioners:

SiEnergy proposes installation of a 6" HDPE (poly), low pressure (<60 PSI) natural gas line in the Right-of-Way of County Road 2658, to bring natural gas service to new residential developments in Hunt County that are currently under construction. All work performed in public Rights-of-Way will be by horizontal directional drilling as necessary to minimize disturbance of surface structure and existing utilities. The route is depicted in Exhibit A on the following page.

SiEnergy understands that **prior to the County constructing an improved roadway, SiEnergy agrees to relocate its trunkline at SiEnergy's sole cost and expense.**

SiEnergy, a Natural Gas Distribution Utility, provides natural gas service to more than 47,000 customers across Texas in the Dallas-Fort Worth, Houston, and the Austin metro areas.
