The Need:

- 1 in 6 seniors in our community faces food insecurity.
- Nearly 70% of our meal recipients rely on Meals on Wheels as their primary source of nutrition.
- We currently serve 737 at-risk seniors, with 82% living below the poverty level.
- Many seniors lack access to fresh food, making daily essentials like milk—a critical source of vitamins and minerals—out of reach.

A Funding Crisis:

- Our ability to serve these vulnerable seniors is at risk. Our state and federal funding has been drastically reduced from \$1.4 million to just \$545,000, making corporate and community support more critical than ever.
- To bridge this gap, we launched our Meals that Matter and Milk Matters Campaigns with a goal of raising \$100,000 to ensure every senior receives the nutrition they need to stay healthy and independent.
- Additionally, we requesting \$19,500 from the court to provide milk to our seniors for 3 months.
