RE: Request for Approval to Install Water Line Within County Right-of-Way

Dear Commissioners,

We respectfully request approval to install a six-inch (6") water line within the county right-of-way along County Road 2292 (south side).

A private easement for the property located at 1817 CR 2292 could not be obtained; therefore, use of the County right-of-way is necessary to complete this installation.

Please see the attached map for the proposed route.

We appreciate your consideration and look forward to your approval.

Thank you,

A handwritten signature in black ink, appearing to read "Dora Gonzalez".
